As we prepare for this year's Golf Tournament, we want to share a quick and transparent update with our golf community.

Like many organizations, we are seeing rising costs. Due to recent fee increases from the Vulcan Golf & Country Club, we will be making modest adjustments to some sponsorship levels and team registration fees this year.

These changes allow us to continue hosting a high-quality event at a course we value deeply, while ensuring the tournament remains sustainable and continues to generate meaningful support for health and wellness initiatives right here in Vulcan County.

We have worked hard to keep increases as reasonable as possible and remain incredibly grateful for the ongoing support of our golfers, sponsors, and volunteers. This event works because of the community — and we are proud to walk forward together.

Thank you, as always, for being part of something that makes a real local difference.
